USE OF IT TOOLS FOR THE PROPAGATION OF SANSKRIT

PROF SANDEEP KUMAR SHARMA
DAV COLLEGE, AMRITSAR.

ABSTRACT:
Recently well-known linguists and computer-scientists have expressed the opinion that Sanskrit is the best language for use with computers. Sanskrit has a perfect grammar which has been explained to us by the world's greatest grammarian Panini. Sanskrit is also the mother of all Indo-European languages and the big sister to computer languages. Now it is the time for developers, academicians, and researchers to come forwarded and help in the computerization of this mother language so that it can be as popular as other languages are. Various social media sites, magazines and newspapers can contribute a lot for mass popularization of this language.

KEY WORDS: Sanskrit, language, computer.
