Public Safety - Is a situation in which public safety objects are protected from risks and threats that could harm them;

The Object - Of Public Safety is to ensure the protection of the rights, freedoms and legitimate interests of citizens, personal safety and property in public places;

Ensuring Public Security - Implementation of a system of political, organizational, socio-economic, information, legal and other measures aimed at ensuring public security by the state;

Public Order - Is a set of legal norms and rules that determine a certain style of public life, based on the norms of morality, traditions and customs, when citizens are together in public places.

And the Definition Given - To the church place is undoubtedly the one that made us the most interesting and long-awaited definition. Because for many years this concept was not described in any of our laws. This concept is described in the project as follows:

A public place is a land, buildings, buildings, structures, parts of them, as well as transport communications, on which it is possible (to be) to visit (to be) without hindrance or to meet the diverse needs of citizens.

CONCLUSION

In this article, I want to conclude my last speech with the question of the head of our state that the whole world is engaged in order to ensure discipline and public security in the country, not the army, not the Ministry of defense, but individual structures. It is known that today we carry out great work on the basis of the concept of " Safe City – safe country " aimed at ensuring public order in our country. In this regard, this new structure, that is, the National Guard, was created, " the president said. — Now henceforth, the implementation of a safe zone project in each city and region, along with the Ministry of internal affairs for the maintenance of Public Order, is determined as responsible and accountable to the National Guard. To carry out these tasks, the National Guard operates in close cooperation with state authorities, public organizations in the localities. So it means that each of us is innocent of Public Safety.
