The design entitled “WEB predicated INTERACTIV ADVERTISING AGENCY”. The main end of this design is to give advertisement details like advertisement cost in various channels. Depending upon the budget the various channels can lot different adverts also the total anterior end developed using Asp.Net and backend is developed using SQL garçon. If an agency does not communicate or bear its client’s pretensions and creative wishes properly problems can do. utmost Full- Service Agencies work on a combination of figure- predicated and commission- predicated compensation.

Keywords : advertisement agency, Web operation, Interactive agency.

PROLUSION

An advertising agency or advertisement agency is a “ service business ” devoted to creating, planning and handling Advertising(and sometimes other forms of creation for its guests. An advertisement agency is independent from the client and provides an outside point of view to the trouble of dealing the client's products or services.

An agency can also handle overall marketing and branding strategies and Deals Promotion for its guests. In order to avoid the below problem this design is to give advertisement details like advertisement cost in various channels. Depending upon the budget the various channels can lot different adverts also the total anterior end is developed using Asp.Net and backend is developed using SQL garçon. Computer is an essential part of the life moment. nearly, in every walk of life, a person in anticipated to be suitable to use computers.

LITERATURE REVIEW

In the being system If an agency does not communicate or bear its client’s pretensions and creative wishes properly problems can do. utmost Full- Service Agencies work on a combination of figure- predicated and commission- predicated compensation. The figure is paid by the reality for which the marketing is being done. still, an agency may have better negotiating powers than your company and save you farther capitalist in the long run anyway. There are far more advantages to having the right advertising agency than not. In order to avoid the below problem this design is to give advertisement details like advertisement cost in various channels.

Marketing at Department of Business Management, School of Management & Accountancy, Islamic Azad University, Qazvin Branch, Qazvin, Iran. I' mco- author of book named(Online Advertising and Promotion Modern Technologies for Marketing) which has been published by IGI- Global in 2012, USA.

METHODOLOGY

The design entitled “ WEB BASED INTERACTIVE ADVERTISING AGENCY ” has been developed for the app. to give advertisement details like advertisement cost in various channels and medias. The design consists of the following modules

- * Director
- * Registration
- * Budget
- * Budget List

ADMINISTRATOR MODULE

Administrator should be suitable to block fraudulent stoners from using the system. Admin should be suitable to add farther channels and timings.

Sub modules

- * Login runner
- * Forgot word
- * Change word
- * Stoners & announcements
- * Channel Timings
- * Stoner Details
- * View vids

In this sub module the admin adds the details of the user like user name, contact no, dispatch id, word and report by taking the primary constraint user id. And it also adds these details in database.

LOGIN runner

In this sub module the user gives his/ her login and word to enter. If he/ she's valid he enters into capsule wizard. However, he it wants valid, If he is not valid.

FORGOT word

Still, he/ she enter into forget word runner there by giving details he gets his word, If the user forgot his word.

CHANGE word

still, he/ she can change his word by giving some details
If the user wants to change his word.

stoners & announcements

Admin has the rights to see stoners and their advertisement's and has a right to accept or reject it.

CHANNEL TIMINGS

The admin can see the timing that stoner had requested to show his/ her advertisement according to the channel.

USER DETAILS

The admin can check the user details if he/ she want.

USER DETAILS

When the user login type of announcements appears, he can choose this type. also he gets new advertisement information form. He fills that form and chooses the budget and timing's

SUB MODULES

- * Slides
- * Vitality
- * Video's

BUDGET

New stoner's budget is registered also and they can Budget on the advertising advertisement with the advertisement agency in this module.

BUDGET LIST

Description According to budget the adverts are distributed for specific period. also time period the agency will follow up their product is specified.

FUTURE ENHANCEMENT

This operation avoids the manual work and the problems concern with it. It's an easy way to gain the information regarding the various products information that is present in the requests. Well, I and my team members have worked hard in order to present an bettered website better than the being one's regarding the information about the various exertion. Still, we set up out that the design can be done in a better

way. Primarily, when we request information about a particular advertisement it just shows the company, dealer details and no. of quantities available. So, after getting the information. An explosion of new advertising models and channels has challenged the truly description of advertising.

CONCLUSION

The package was designed in such a way that future variations can be done easily. automation of the entire system improves the effectiveness It provides a friendly graphical user interface which proves to be better when compared to the being system.
