INTRODUCTION

The Congress of upbringing of young people in the military-patriotic spirit (in subsequent places-the Congress) – developed on the basis of the basic principles and priorities of the state policy on youth implemented in our country, in the current complex globalisation period, information and communication technologies in a rapidly developing environment, the actual tasks associated with the upbringing of young people in the spirit of military patriotism and ways of their solution, the role and importance of state and non-governmental

A critical assessment of the existing system for educating young people in the military-patriotic spirit is given in the concession, and special attention is paid to the issue of improving it on the basis of the requirements of the strategy of actions for the development of our country in 2017-2021 in combination with the national and global advanced experiences, real

In this conception, the issue of educating young people in the military-patriotic spirit is considered as an integral and integral part of the holistic education and training system related to the upbringing of a spiritually healthy generation.

The main meaning of the concept is the preservation of our native land as an eye shadow, the most important concepts related to the glorification of its fame to the world, the integration of vital and professional skills into the hearts and minds of young people on the basis of Ilmu enlightenment from the first childhood and thus the education of true patriot.

II. GOALS AND OBJECTIVES OF EDUCATION OF YOUTH IN THE MILITARY-PATRIOTIC SPIRIT

Upbringing of young people in the military-patriotic spirit is a multi-stage, systematic, purposeful and coordinated activity of state bodies, public associations and organizations aimed at forming a sense of loyalty to the motherland in young people, regardless of nationality, language and profession, educating them as individuals capable of fulfilling their civil duties and constitutional obligations, protecting the interests of society and

The main purpose of educating young people in the military-patriotic spirit is to show activity in different branches of society, especially in the types of civil service associated with the

military sphere, to be faithful to the Constitution and military duty in a peaceful and military environment, to form in them such important features as high responsibility and responsibility for the fate

In the upbringing of young people in the military-patriotic spirit, the following are defined as the main tasks:

to educate young people in the spirit of national idea and loyalty to the Republic of Uzbekistan, its people and the president, to deepen their hearts and minds that the protection of Vatan is an honorable and sacred duty;

to be proud of our ancient history and culture, independence and prosperity of our country, national heroes who fought selflessly, to form a sense of being worthy of them, to give confidence in the power and potential of our national army;

the need for energetic and spiritually mature young people in our national army, the understanding that military service is a sacred duty for every citizen of Uzbekistan, and the strengthening of theoretical and practical skills in this regard;

the formation of ideological immunity against various internal and external threats, the skills to approach the political and social processes taking place in the youth side-by-side and in the world, based on our national interests;

adapting to combat movements, making quick and independent decisions in any complex situations, educating young people with the skills of effective use of modern military equipment;

To be ready to protect the interests of Uzbekistan not only in the military sphere, but also in all spheres of life, at every step, to be self – sacrificing for the country-to be immersed in the minds of young people with vital examples and impressive means that this is today's talabi.

III.THE SYSTEM OF EDUCATING YOUNG PEOPLE IN THE MILITARY-PATRIOTIC SPIRIT AND ITS BASIC PRINCIPLES

The system of upbringing of young people in the military-patriotic spirit is a continuous process, consisting of a complex of political, legal, socio-economic, ideological, cultural and educational activities connected with each other.

Upbringing of young people in the military-patriotic spirit is carried out on the basis of the Constitution and laws of the Republic of Uzbekistan, decrees and decisions of the president of the Republic of Uzbekistan, general military regulations of the Armed Forces, normative-legal acts of the Ministry of Defense, Departments of the Armed Forces system.

The system of upbringing of young people in the military-patriotic spirit includes the following structures:

pre-school education, general secondary schools, secondary special, vocational education and higher educational institutions aimed at the formation and development of socio-spiritual values, the spirit of love and loyalty to the motherland starting from the kindergarten, which is the most important and main link of the educational process;

state and non-governmental organizations carrying out mass and military-patriotic work, local authorities and administrative bodies, structures of the Armed Forces, departments of Defense Affairs, military units and institutions, law enforcement bodies, councils of Veterans, structures of the Youth Union of Uzbekistan and other organizations.

The upbringing of young people in the military-patriotic spirit is carried out regularly on a systematic and scientific basis, and all subjects of society are responsible for its effectiveness.

In particular, its main subjects are the following:

state and local authorities;

non-profit organizations and civil society institutions;

family;
