**INTRODUCTION**

Aesthetic education is an important element that contributes to the creation of a spiritual atmosphere in society, it is a force that forms and develops human taste, bringing people closer to social relations. Currently, the scope of aesthetic education is expanding. Accordingly, he set himself many important tasks.

**THE MAIN FINDINGS AND RESULTS**

These are: - not only the active reduction of works of art, artistic samples, but also the improvement of the ability to understand and appreciate their aesthetic essence;

- show the potential of members of society and instill a sense of confidence in the possibility of their use;

- treat the social processes of nature and society with pure feelings and develop the child's abilities, working diligently to develop them;

- to create the ground for the formation of a sense of national pride and national pride, to awaken a sense of respect for our Atmian spiritual heritage;

- develop all types of iodine and encourage them to promote their beneficial properties for the benefit of the nation.

The main means of aesthetic education include such areas as art, information technology, nature, cocktails, sports. An important tool for artistic education. Information technology is a global tool for aesthetic education. Neighborhood is an important tool of aesthetic education. Necessary tool of nature-aesthetic education. Means of aesthetic education of labor Sport is a modern means of aesthetic education.

The purpose of aesthetic education is the formation of a personality culture, which includes:

- Aesthetic plaster. The ability to see beauty in art and life.
- Aesthetic sensations. These are the emotional experiences of a person, based on an evaluative attitude to the phenomena of nature, art, etc.
- Perfect aesthetics. This is a person's idea of perfection.
- Aesthetic needs The desire to communicate with beauty in its various forms.

- Aesthetic broker. This is the ability to distinguish between beautiful and ugly things, to evaluate them in accordance with the existing aesthetic knowledge and formed Ideals.

#### Tasks of aesthetic education:

The first is designed to form the aesthetic knowledge of the younger generation and introduce them to the culture of the past. Children are taught to see beauty in life, in food, in nature and be sensitive to it. Aesthetic ideals are formed. The pursuit of excellence in actions, thoughts and appearance is encouraged. The teacher should not forget that everyone's aesthetic taste is different. Some children are fascinated by classical music, others are happy with hard rock. Children need to be taught to associate the tastes of other people and times with their own uniqueness, to treat them with respect.

#### CONCLUSION

The duties of the second guru include participation in the practical artistic activities of children. They are taught to draw, compose fairy tales, sculpt from plasticine, dance, play musical instruments, sing songs, read poetry. Teachers organize theatrical performances, concerts, literary evenings, exhibitions and festivals. As a result, the child is actively engaged in creative activities, learning to create beauty with his own eyes.
