### ABSTRACT

This article Uzbekistan implemented in the economy reforms deepen it further in order to of roads business in the field projects support and women's problems identified on the ground solve important importance occupation is enough.

**Keywords :** employment , economy , reforms , light construction , entrepreneurship.

### INTRODUCTION

In recent years Uzbekistan implemented in the economy reforms further deepening and its structural improvement, that is, changes in the real estate market, the economy in the composition different to ownership based on economy host subjects Opportunities for the development of activity and entrepreneurship have been expanded . Especially of the family collective property basically organize done family the importance of entrepreneurship is increasing. In this case, women work with busy like doing current issue solution in reaching this activity of type especially importance incomparable that to see possible Republic of Uzbekistan President Sh.M. Mirziyoyev High To the meeting did In the petition , " ...the role of women in state and community management and position more strengthening – of our reforms the most priority from directions is one. Of women business in the field projects support and women's problems identified on the ground more than 1 trillion soums in addition to the budget to solve will be directed <sup>1</sup>- he noted.

At this point, it is worth noting that d avlat leader by acceptance done five initiative based on<sup>2</sup> social and spiritual changes in the country is expanding further . Including in the relevant clauses of the initiative of women interests to provide years during them elimination of social problems, women's employment increase according to sure tasks is set . Because due to unemployment women different to countries work looking for gone their children careless remaining themselves foreign in countries heavy to difficulties subject to was happening <sup>3</sup>.

In fact, the President of Uzbekistan before drove five from initiative one here that's it the problem solution to do of women employment provide through to them aimed at creating full living conditions. This initiative done increase for Uzbek cotton industry shareholding society and Lightweight construction in each district by the Uzbek Industry Association sewing and knitting enterprises organize reach and women busy reach in the eye caught. This to enterprises the first in line breadwinner lost marriage heavy by mistake negative to streams mixed up the rest women also Women with many children are employed attraction is being done.

In the years under review Jizzakh province a number of measures were taken on the issue of women's employment. As shown in the statistics of the region workers and servants common in number the share of women was 37.3 percent in 2017 and 36.5 percent in 2018 in the same period <sup>4</sup>, other regions of the republic, including Andijan, 46.4; 46.6 percent (for these years) in Namangan 45.5; 46.1 percent, 47.5 in Ferghana; It consisted of 48.2 percent. This is the village regions point of view in terms of considered the situation understanding very easy. The reason is mainly unemployed young women who are able to work village in places being young in families of domestic problems abundance and poverty is also related to employment status.

At this point, it should be noted that a number of measures have been accelerated by the government since 2017 in the process of employment of people in remote areas (villages) at the republic level. In particular, the decision of the President of Uzbekistan on June 1, 2017 "On establishing the association of walnut producers and exporters and organizing its activities" opened a wide path for the development of this neglected industry. According to him, in Andijan, Kashkadarya, Jizzakh, Namangan, Samarkand, Surkhandarya, Tashkent and Fergana regions, walnut groves with a total area of 10,000 hectares were established <sup>5</sup>, and as a result, opportunities for employment of a certain part of the rural population, including women, were expanded.

In general, it is worth noting that improving the lifestyle of women and solving their daily household problems is a constant focus of the government. This issue is the President of the Republic of Uzbekistan Sh.M. Mirziyoev led by 2020 of the year It was also discussed at the video selector held on March 18, "For 22 thousand in our country close wife lives in difficult living conditions. They are underprivileged, unemployed to housing needs and disability there is women being each one's to the problem individual approach demand" - <sup>6</sup>it was noted. Indeed, women employment to be provided regarding problems the solution only to the state depends not. But about It is necessary to change the views of some families in our nation. Some edge in the regions is located in families girl children higher there are still cases of preventing them from receiving information, or that some of the girls themselves want to have a higher education and a profession do not want to occupy. They see themselves as "mother-to-be" or "home". Mistress" that they imagine.

International work organization Chief of the director politics according to deputy Deborah of Greenfield information according to the world of women half are excluded from the labor force, but 58 percent of women are in paid employment prefer to work. 20% of men and 14% of women until now a woman own from home outside not working that it is necessary they <sup>7</sup>count

Such are the views that have become a habit in some families it also affects the status of women in the society. That's why for too state of women first of all their own worldview to change, a unique and appropriate position in the family, society, and state will have to help with acquisition. So, women employment of provision first foundations create in the future only

their economic his life just fine no longer perhaps prospective a child in education and their in society ownfinding a place too big importance occupation e taste.

Women and girls of employment provided their economic realization of rights emerges as the most important task. In thisof women property has been rights, their entrepreneurship activities support issue relevance with is important. Thisabout 2020 year October 23 day Senate Chairman Tanzila Narbaeva under the leadership of Uzbekistan delegation "Women and girls economic rightsand a call to action on empowerment" (Call to Action on Women's Economic Empowerment) by the US Department of State by virtual in the format organize done international in the forum participation did<sup>8</sup>

According to the Embassy of Uzbekistan in Washington, 14 ta state participation did International forum during participants wife of girls economic rights expand, their global in the economy role strengthen, also whole in the world a woman to entrepreneurs own opportunities come true release for equal to conditions andopportunities discussed issues of complete creation.

supporting entrepreneurial initiatives among women support issues not only in Uzbekistan, but also in the world community current problem as surface coming out

The table below shows the general informality of women in the sector employment about data placed

In the table given analytical from the data to see the low level of participation of women in the informal sector maybe If we look at the data of the republic for comparative analysis, 2018 in of men informal in sectors employment is 40.5 percent, and 27.1 percent of women , 2019 in this indicator 47.5 in men percent, and 21.5 percent of women, And in 2020, it is it can be observed that the indicator is 46.3 percent, and 22.7 percent of women . . In this to 2018 relatively 2019 in of men informal in sectors employment increased by 7% , while the employment of women decreased by 5.6%. 2019-and in 2020, the employment of men in this field is 1.2 % decreased, of women and employment 1.2 percent grew <sup>9</sup>up

<sup>8</sup> Uzbekistan of the United States women economic rights and opportunities expand according to to actionscall to the participant turned . 27.10.2020. <https://yuz.uz/news> .

<sup>9</sup> Information from the Ministry of Employment and Labor Relations.

These analyzes first, the employment of women in the informal sector 23.6% lower compared to men. Secondly, informal in sectors employment issue 3 yearly period in the section 7% increase in male employment in 2019 compared to 2018 growth observed if women in employment 5.6 percent decline observed.

to 2019 relatively in 2020 while very big difference was not noticed. Thirdly, if we consider women's employment in general, their informal in the sector employment 4.1 to the part too right does not come.

One of the main solutions for ensuring employment is this investment wide attraction to do is considered In this regard, 2019 year Jizzakh 100 million US dollars for Orda Park, which occupies an area of 35 hectares in the city dollar in the amount investment with input b, him of the world the most good from the garden to a complex that does not stay rotate in the eye was caught <sup>10</sup>. President assignment based on above recreation garden set up reached 150 personality work place was created. From him 50 to women separated.

entrepreneurship in providing employment for women activities is of great importance in this regard According to the law, family business is established as a legal entity and can be done without it. This type of activity is especially young, work activities now starting to women very comfortable and fits. Because at home without spending too much time and money benefit (income) bringer work with busy will be In the family children education with to laugh chance will be and the most importantly in young people, such as hard work, mutual help, thrift, etc., are characteristic of the nation eternal values are formed. This is usually the way to big business begins.
