Chapter 5 Stages and directions of education in the spirit of military patriotism

14. The state is the main institution that organizes the system of educating young people in the spirit of military patriotism and monitors its results. The state organizes the educational process of the younger generation in the family, preschool, general secondary education, vocational education and higher education, during military service, as well as within the framework of civil self-government, various governmental and non-governmental organizations.

15. The work on educating young people in the spirit of military patriotism is carried out in the following four stages:

See previous edit.

a) The first stage (3 - 7 years old) is the stage when the first ideas about the world around the homeland are formed, in which children and families are taught different poems, melodies and songs, show cartoons and games, understand the world through drawing, based on acquaintance with the state symbols (flag, coat of arms, anthem) includes the formation of love for the motherland in them. At this stage, the main focus is on:

(Subparagraph "a" of paragraph 15 as amended by the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated May 20, 2021 No. 320 - National Database of Legislation, 21.05.2021, No. 09/21/320/0482)

to tell fairy tales and stories in order to form the first impressions in the military-patriotic direction;

memorization of poems and songs on the themes of love for the motherland, the protection of the homeland is a sacred duty;

organizing various competitions and contests to expand children's imagination and strengthen their physical abilities, thereby encouraging them spiritually;

showing military-patriotic cartoons and various games;

organization of excursions to military museums and cultural and recreational parks on military-patriotic themes;

b) in the second stage (7-16 years old) to strengthen students' love and devotion to the Fatherland, to fulfill their childhood duty to the motherland with high responsibility, to expand their positive attitude to the Armed Forces, to raise the prestige of military service, physically fit, spiritually mature, broad are encouraged to do good deeds, such as shaping as a world-minded, independent-minded person. At this stage:

reading articles about modern heroes, fiction;

organization of cultural and educational events in the military-patriotic direction, thematic evenings and song contests in general secondary educational institutions, presentation of performances;

organization of essay competitions with the participation of students on the theme "I will protect my homeland like the apple of my eye", "The fate of the country - my fate";

organization of sports competitions and events on such topics as "Followers of Temurbek", "Children of Uzbekistan will be brave" in health resorts;

showing and discussion of feature and documentary films, cartoons on military-patriotic themes;

to include information about the life and work of our great commanders in textbooks and teaching aids, to tell stories about their courage, dedication and heroism on the basis of vivid examples;

Organization of excursions to special groups and military units of Temurbek schools, higher military educational institutions, professional colleges and academic lyceums;

Meetings with our compatriots, winners of the state award "Brave Boy", the wide dissemination of their achievements and results among young people;

pay special attention to the gradual organization of military-sports games "Heirs of Temurbek" with the participation of senior students of secondary schools;

c) The third stage (16-18 years old) is aimed at ensuring the mental and physical readiness of young people to serve the Motherland and its defense. At this stage, in addition to the above tasks, attention will be paid to the following issues:

to prepare young people for military service, to form their independent opinion and positive attitude to military service, to strengthen the sense of patriotism;

to organize various meaningful and interesting events in cooperation with defense departments and military units, self-government bodies, state and public organizations in order to enrich the theoretical and practical knowledge and skills of students;

to provide detailed information on the need for physically strong and spiritually mature youth for our national army, the importance of military service, the ongoing reforms in the Armed Forces;

g) The fourth stage (18-30 years) involves the development of physical and spiritual abilities, leadership skills and intellectual potential, general and professional skills of young people, encouraging them to work on themselves regularly, to lead a healthy life and achieve this. At this stage, the following aspects need to be considered:

to further enrich the imagination and knowledge about the importance of educating the younger generation as people who are fully mature, intellectually and spiritually capable, loyal to their parents and homeland;

See previous edit.

Always be ready to defend the Motherland and be proud of the young people serving in the Armed Forces, to form a sense of constitutional duty and loyalty to the Fatherland;

(Paragraph 3 of subparagraph "g" of paragraph 15 as amended by the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated March 23, 2020 No 179 - National Database of Legislation, 24.03.2020, No 09/20/179/0350)

adaptation to the conditions of military service and thorough acquisition of military specialties, readiness for any challenge, strengthening the qualities of perseverance and courage, development of skills in the protection of weapons, military equipment, state and military property;

formation of such qualities as combat training and regular improvement of military skills, mutual assistance and appreciation of friendly relations established in the military team;

to closely assist young people in mastering their chosen profession and becoming mature professionals;

to promote reading, to inculcate in young people the role and importance of works of art in determining the high spirituality in society;

to develop a critical attitude towards foreign ideas that contradict our national ideology and ideological immunity, self-confidence, vigilance and awareness; teaching them to be persistent.

Chapter 6 Effectiveness and criteria of education in the spirit of military patriotism

16. The effectiveness of educating young people in the spirit of military patriotism is determined by the positive impact of this process on the upbringing of a harmoniously developed generation, the level of patriotism of young people.

17. An important condition for determining the level of effectiveness in military-patriotic education is the regular consideration and analysis of factors that positively affect the further development and improvement of such qualities in young people as patriotism, military duty, loyalty to military traditions.

18. One of the important criteria of upbringing in the spirit of military patriotism is determined by the extent to which the requirements of society to the younger generation are commensurate with the content, form and methods of educational work in this area.

Chapter 7 Final rules

19. This Concept serves as a methodological basis for increasing the effectiveness of military-patriotic education among young people, increasing their knowledge and skills aimed at high spiritual and moral qualities, civic position, love for the Motherland and its preservation.

20. Implementation of the concept will increase the sense of patriotism of the citizens of the Republic of Uzbekistan, fill the ranks of the national army with young people with modern knowledge and professional skills, strong will, active citizenship.
