INTRODUCTION

Who is the propagandist?

In short, the creative people are the coaches, in fact. By definition, it means to share manners, to call for morality. This means that the creators are joining the ranks of all teachers as colleagues. The bold steps to be taken towards the further development of our country depend, first of all, on the education and upbringing of our youth.

The appeal of the President of the Republic of Uzbekistan Shavkat Mirziyoyev to the schools of our country to the youth of our country "Never forget, you are the creator of a new Uzbekistan, a new Renaissance, where people live freely, freely and prosperously" There is no doubt that it will make you happy. This is the first time in the history of Uzbekistan that such a congratulation has been observed. Indeed, "New Uzbekistan - starts at school"! [1]

We must instill in the hearts of the younger generation "from national revival to national uplift." The power of the New Uzbekistan, whose dreams are shining brightly in the morning,

will undoubtedly be based on the thinking and, of course, the proper upbringing of our young people. In addition, the Third Renaissance, the next period of the Renaissance, requires only and only high potential, a worthy follower of our ancestors, who have unparalleled thinking.

In recent years, improving the quality and efficiency of the education system in the country, the formation of modern knowledge and skills in kindergarteners, schoolchildren and students, close cooperation between education systems and science and Systematic work is being done to ensure integration, continuity and continuity of education.

At the same time, the current state of the national education system requires its modernization in accordance with modern requirements, the education of young people as highly educated, physically and spiritually healthy people, the prestige of managers and teachers of educational institutions. increase, requires the implementation of consistent measures to create the necessary conditions for their effective operation.

Advocacy staffs are being set up in schools to develop students' professional skills.

On the basis of the word "propagandist" "propaganda" means to promote something, to motivate to action, and has a role in the formation of agility, weight in students, in social life. It is necessary to understand the person who helps and sets an example.

In accordance with the Decree of the President of the Republic of Uzbekistan dated November 6, 2020 No PF-6108 "On measures to develop education and science in the new period of development of Uzbekistan" creative and cultural activities in schools the position of advocate on issues was introduced. The development of the following tasks will improve the educational and scientific spheres of the country, increase the respect for teachers and pedagogical staff, scientific and creative intellectuals in our society, develop the professional skills of students, innovate the system. In order to:

- Training of a new generation of personnel with high intellectual and spiritual potential, capable of coming up with new initiatives and ideas for the development of the country, to ensure that graduates of educational institutions become modern professionals. formation of nicknames and knowledge;
- Establish a national education system that can withstand today's fierce global competition, improve textbooks and manuals in line with modern requirements, create a new generation, optimize curricula and standards;
- Enhancing the role and status of leaders of educational institutions, teachers and educators, professors and representatives of science in our society, rewarding their hard work and financial incentives based on their effectiveness;
- creating the necessary conditions for continuous improvement of professional skills and efficiency of teachers, improving the system of professional development on the basis of "lifelong learning";
- Expanding the role of the private sector in the provision of research and educational services, creating a competitive environment through the establishment of non-governmental educational organizations in the regions, developing public-private partnerships in education;
- Creation of a system of automation and comprehensive analysis of education management with the use of modern information and communication technologies, further development of electronic resources and distance learning, popularization of IT professions among students;

- To make science the main driving force of the economy, expand the scope of scientific research, encourage the innovative activities of talented young scientists, further strengthen and develop the potential of existing scientific organizations;

- We are tasked to introduce highly effective international practices in the education system, to carry out systematic work to include the country's educational institutions in prestigious international rankings. [2]

The introduction of the position of a promoter of creative and cultural issues in every secondary school from January 1, 2021 marks the beginning of the year with news. The appointment of creative people to this position is a testament to the responsibility of this profession.

Well-known poets, writers, journalists and artists, professors and teachers of social and humanitarian departments of higher education institutions, recommended by the Writers' Union of Uzbekistan, will be involved in this position.

As noted:

a) Prominent poets, writers, journalists and creators, professors and teachers of social and humanitarian departments of higher education institutions, recommended by the Writers' Union of Uzbekistan, will be involved in the promotion of creative and cultural issues;
